Who we are?

Eco Zone Trading, Contracting and Services WLL is one of the best service provider in Qatar in Air conditioning and Refrigeration systems. We are a keen, thriving, competitive business that contracts to many leading organisations in Qatar.

Our in-house expertise revolves around a loyal and long-serving team of qualified technicians who have acquired the experience, knowledge, expertise and skills to provide quality services of varying scale and complexity.

Our people are committed to customer service excellence, good communication and always delivering projects to client specification, within budget – and on time.

Our Mission

Our mission is to provide our client with best possible services in most competitive price without compromising at the quality, safety and environment. When it comes to our services we make sure that we keep in mind even a minute detail to serve our client better and maintain a long term business relationship with them.

Our Vision

Our goal is to become one of the leading company in our services by always providing the best possible product, with the highest quality of services and demonstrating faithfully our commitment towards social and environmental responsibility.

Why Choose Us ?

We are known and respected in the industry for prompt and reliable customer service and for always delivering our projects on time and on budget. As we are in the path of growing and transforming our organization in to one of the best Air conditioning and Refrigeration Company, we are very keen to establish new relationships with reputed firms like yours. We can assure you that our association with you will surely add values and more success to your organization.

Our Services

Eco Zone Air Conditioning has the capacity to design, construct and install all types of air conditioning and refrigeration systems to your specifications and the skill, knowledge and experience to customize solutions to your requirements.

We also provide a range of cleaning services for commercial and industrial clients and we also work along with real agents in order to arrange end of lease clean ups for residential properties. Eco Zone brings a fresh and professional approach to cleaning services; our goal is to exceed the expectations of every client by offering outstanding customer service, exceptional quality, and add greater value for the service.

Our scope is to accomplish all commercial cleaning needs, and offer personalized and customized service and design a program for each clients needs.

In summary, Eco Zone is qualified, willing and able to undertake any and every cleaning task you might require. We can be there quickly, quietly and discreetly. We take pride in our work. We operate to high standards of safety and quality. Our rates are reasonable and we have many satisfied customers.

SPECIALISED CLEANING SERVICES

AIR CONDITIONING & REFRIGERATION SYSTEM INSTALLATION & MAINTENANCE

PEST CONTROL

SPECIALISED CLEANING SERVICES

Cleaning of restaurants

The cleanliness of your restaurant or cafe is just as important as the food you serve. A lot of time and effort goes into cleaning a restaurant, kitchen and even equipment. Choosing a commercial cleaning provider that has this knowledge and experience is important to uphold the highest standards, helping to keep customers coming through your door.

Cleaning of kitchen hood & extraction system

Kitchen Hood & Extraction System is one of the primary defenses against fire hazards through regular maintenance. It will help keeping kitchen exhaust systems working at their best. They will also evacuate smoke and grease out of the building more effectively.

Water tank cleaning

Water tank cleaning & chlorination is an important part of water hygiene. Whether a small domestic type water storage tank, feeding a small water heater, or a large water reservoir, feeding many properties, the fundamentals are the same; clean tank mean clean water.

Air conditioner duct cleaning

One of the most neglected things about good appliances in the household is its proper servicing or regular maintenance. The reliability and durability are directly impacted by the proper servicing of air conditioners and other household appliances. Duct's air conditioner service technicians will inspect, clean, and tune your air conditioner unit, which will ensure a cool and comfortable summer season for you. We provide specialist cleaning service for commercial properties, restaurants, schools and more to ensure safety within the air ducts.

Drainage system & grease trap cleaning

Drain Cleaning are equipped with the latest technologies including video inspection if needed. We are also equipped with tools to provide efficient drainage as well as Sewer Cleaning Services to Restore Your Plumbing System. Drains are a vital part of the sanitization process of any property. If your drain gets clogged or blocked get professional help as early as possible to avoid back flow of dirt and water. Debris and other defects should be detected and removed to ensure that the drainage system functions properly. We offer services that can be used to clear the obstructions in laundry tubs, kitchen pipes, bathrooms, toilets, grease traps etc.

AIR CONDITIONER & REFRIGERATION SYSTEM INSTALLATION AND MAINTENANCE SERVICES

Installation of new air conditioners:

We provide professional installation and services for air conditioners. We carry ductless and duct split systems, window, wall units. We deliver and install units at any time which is convenient for our customers. We mainly deal with Brands like Gree, MIDEA, Oryx, Blue Star, Aftron, Panasonic, Carrier, General, Mitsubishi etc.

Maintenance & servicing of air conditioners:

An air conditioner's filters, coils, and fins require regular maintenance for the unit to function effectively and efficiently throughout its years of service. Neglecting necessary maintenance ensures a steady decline in air conditioning performance while energy use steadily increases.

With regular maintenance, the airing system in the AC will be cleaned and the filters will not get jammed with dust and other types of residue. As a result, the air coming through the air conditioning unit will be fresher, of much better quality, and as cool as it used to be when you first purchased it.

WE DO

- Annual maintenance Contract
- On Call maintenance Contract
- Breakdown Call Services

PEST CONTROL

We can help you with great service at affordable prices for all your commercial & residential pest control and cleaning needs. We are committed to make your home and business pest free with advanced technology, disinfection, and cleaning services for all types of pests. We use the latest equipment & quality products to achieve the best results for your satisfaction.
